

Facility ID: 1431070327 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1431070327 Emissions Unit ID: K002 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Mini Flexographic Press	See Section F. OAC 3745-31-05	8.21 TPY VOC.
	OAC 3745-21-09(Y)(1)(a)	See T&C A.2.2. Less stringent than the above- mentioned.

2. Additional Terms and Conditions

- (a) The maximum volatile organic compound (VOC) content of all coatings and inks employed in this emissions unit shall not exceed 0.3 pound per gallon, as applied.
The maximum VOC content of all cleanup materials employed in this emissions unit shall not exceed 7.1 pounds per gallon, as applied.

B. Operational Restrictions

None

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall collect and record the following information each month for this emissions unit:
 - a. the name and identification number of each coating, ink and cleanup material employed;
 - b. the VOC content of each coating, ink and cleanup material employed, in pounds per gallon, as applied;
 - c. the number of gallons of each coating, ink and cleanup material employed;
 - d. the total VOC emissions from each coating, ink and cleanup material employed, i.e., (b)(c), in pounds; and
 - e. the total VOC emissions from this emissions unit, i.e., the sum of (d) for each coating, ink and cleanup material employed, in tons.

D. Reporting Requirements

1. The permittee shall notify the Director of any monthly record showing an exceedance of the coating VOC content limit in A.2.2.a. and/or the cleanup material VOC content limit in A.2.2.b. A copy of such record shall be sent to the Director within 30 days following the exceedance.
2. The permittee shall submit an annual report which summarizes the annual VOC emissions from this emissions unit. This report shall be submitted by February 15th of each calendar year.

E. Testing Requirements

1. USEPA Methods 24 and 24A shall be used to determine the VOC content for (a) coatings and (b) flexographic and rotogravure printing inks and related coatings, respectively. If, pursuant to section 4.3 of Method 24,40 CFR Part 60, Appendix A, an owner or operator determines that Method 24 or 24A cannot be used for a particular coating or ink, the permittee shall so notify the Administrator of the USEPA and shall use formulation data for that coating or ink to demonstrate compliance until the USEPA provides alternative analytical procedures or alternative precision statements for Method 24 or 24A.
2. Compliance with the annual VOC emission limit shall be demonstrated by the recordkeeping requirements of section C.1. of this permit.

F. Miscellaneous Requirements

1. The following terms and conditions shall supersede all the air pollution control requirements contained in permit to install number 14-4065 issued for this emissions unit on 7/11/96:

Part II: Special Terms and Conditions, A-E.
