

Facility ID: 1431073308 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Brake Lining Stripper	40 CFR Part 61 Subpart M OAC rule 3745-17-07(A) OAC rule 3745-17-08(B)	See A.2. below. Less stringent than above. Less stringent than above.

2. Additional Terms and Conditions

- (a) No visible emissions (as defined in 40 CFR Part 61.141) shall be discharged to the outside air during collection, processing, packaging or transporting of any asbestos containing waste material generated by this emissions unit.

B. Operational Restrictions

1. The asbestos containing waste material shall be wetted and sealed in leak tight containers, which is no less than double six-mil bags.
2. All containers shall be labeled in accordance with the following:
 - a. Occupational Safety and Health Standards of the Department of Labor, Occupational Safety and Health Administration (OSHA) under 29 CFR Parts 1910.1001(j)(2) or 1926.58(k)(2)(iii):

"Danger
Contains Asbestos Fibers
Avoid Creating Dust
Cancer and Lung Disease Hazard"
 - b. The Department of Transportation Regulations as found in 49 CFR Part 100-199:

"Asbestos NA2212 RQ"
the generator name and location
a class 9 label
3. The containers holding asbestos containing waste material which is to be transported off site shall be labeled with the name of the waste generator and the location at which the waste was generated.
4. All vehicles used to transport asbestos containing waste shall be marked during the loading and unloading of the waste so that the signs are visible. The signs shall conform to the requirements of 40 CFR Part 61.149(d)(1)(i), (ii), and (iii):

"Danger
Asbestos Dust Hazard
Cancer and Lung Disease Hazard
Authorized Personnel Only"
5. The permittee shall complete and maintain waste shipment records for all asbestos waste containing material transported off site, which meets the requirements of 40 CFR Part 61.150 (d).
6. The permittee shall deposit all asbestos containing waste as soon as is practical at a waste disposal site operated in accordance with the provisions of 40 CFR Part 61.154.

C. Monitoring and/or Record Keeping Requirements

1. This emissions unit shall be monitored at least once each day during daylight hours for visible emissions to the outside air. The monitoring shall be visual observation of at least 15 seconds duration.
 2. The permittee shall maintain records of the daily visible emission monitoring which shall include the following:
 - a. the date and time of the inspection;
 - b. whether or not visible emissions were observed; and
 - c. if visible emissions were observed, what action was taken to correct the problem.
- D. Reporting Requirements**
1. The permittee shall submit quarterly reports documenting each day in which visible emissions were observed from this emissions unit and what corrective action was taken. The reports shall be submitted by January 30, April 30, July 30, and October 30 of each year and shall cover the previous three calendar months (October-December, January-March, April-June, and July-September).
- E. Testing Requirements**
1. Compliance with the no visible emission limit in section A.2. of this permit shall be demonstrated by the monitoring and recordkeeping requirements in sections C.1. and C.2. of this permit. The visible emissions observation shall be conducted using Method 22 of 40 CFR Part 60, Appendix A.
- F. Miscellaneous Requirements**

None
