

Facility ID: 1431473443 Issuance type: Title V Draft Permit

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part III" and before "I. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 1431473443 Issuance type: Title V Draft Permit

## Part II - Specific Facility Terms and Conditions

### a State and Federally Enforceable Section

1. There are no soil storage piles being employed at this facility and this permit does not authorize the permittee to establish and maintain soil storage piles at this facility.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 1431473443 Issuance type: Title V Draft Permit

### b State Only Enforceable Section

1. The following insignificant emissions units are located at this facility:

T001- 21,000 - gallon leachate storage tank  
T002- 21,000 - gallon leachate storage tank  
T003- 2,100 - gallon leachate storage tank  
T004- 2,100 - gallon leachate storage tank  
T005- 1,000 - gallon above ground diesel storage tank

Each insignificant emissions unit at this facility must comply with all applicable State and federal regulations, as well as any emission limitations and/or control requirements contained within a permit to install for the emissions unit.

**Part III - Terms and Conditions for Emissions Units**

[Go to the top of this document](#)

Facility ID: 1431473443 Emissions Unit ID: F001 Issuance type: Title V Draft Permit

**A. State and Federally Enforceable Section**

The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

1. None.

**I. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
unpaved roadways and parking areas	OAC rule 3745-31-05(A)(3) (PTI 14-04858)	There shall be no visible particulate emissions except for 3 minutes during any 60-minute period.
	OAC rule 3745-17-07 (B)(5)	See section A.I.2. below. The visible emissions limitation specified by this rule is less stringent than the visible emissions limitation established pursuant to OAC rule 3745-31-05(A)(3).
	OAC rule 3745-17-08(B), (B)(2)	The control measures specified by this rule are the same as or less stringent than the control measures established pursuant to OAC rule 3745-31-05(A)(3).
paved roadways and parking areas	OAC rule 3745-31-05(A)(3) (PTI 14-4858)	There shall be no visible particulate emissions except for one minute during any 60-minute period.
	OAC rule 3745-17-07 (B)(4)	See section A.I.2. below. The visible emissions limitation specified by this rule is less stringent than the visible emissions limitation established pursuant to OAC rule 3745-31-05(A)(3).
	OAC rule 3745-17-08 (B), (B)(8), and (B)(9)	The control measures specified by this rule are the same as or less stringent than the control measures established pursuant to OAC rule 3745-31-05(A)(3).

**2. Additional Terms and Conditions**

- a. The unpaved roadways and parking areas that are covered by this permit and subject to the requirements of OAC rules 3745-31-05(A)(3), 3745-17-07 and 3745-17-08 are listed below:
  - (a) unpaved roadways:
    - unpaved roadways #1, 2, 3, and 4
  - unpaved parking areas:
    - none
- b. The paved roadways and parking areas that are covered by this permit and subject to the requirements of OAC rules 3745-31-05(A)(3), 3745-17-07 and 3745-17-08 are listed below:
  - paved roadways:
    - paved roadways #1, 2, and 3
  - paved parking areas:
    - paved parking areas #1 and 2
- c. The permittee shall employ best available control measures on all unpaved roadways for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the

permittee's permit application, the permittee has committed to treat the unpaved roadways with water at sufficient treatment frequencies to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.

- d. The permittee shall employ best available control measures on all paved roadways and parking areas for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the permittee's permit application, the permittee has committed to treat the paved roadways and parking areas by flushing with water, sweeping, and/or watering at sufficient treatment frequencies to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.
- e. The needed frequencies of implementation of the control measures shall be determined by the permittee's inspections pursuant to the monitoring section of this permit. Implementation of the control measures shall not be necessary for an unpaved or paved roadway or parking area that is covered with snow and/or ice or if precipitation has occurred that is sufficient for that day to ensure compliance with the above-mentioned applicable requirements. Implementation of any control measure may be suspended if unsafe or hazardous driving conditions would be created by its use.
- f. Any unpaved roadway, which during the term of this permit is paved or takes the characteristics of a paved surface due to the application of certain types of dust suppressants, may be controlled with the control measures specified above for paved surfaces. Any unpaved roadway that takes the characteristics of a paved roadway due to the application of certain types of dust suppressants shall remain subject to the visible emission limitation for unpaved roadways. Any unpaved roadway area that is paved shall be subject to the visible emission limitation for paved roadways.
- g. The permittee shall promptly remove, in such a manner as to minimize or prevent resuspension, earth and/or other material from paved streets onto which such material has been deposited by trucking or earth moving equipment or erosion by water or other means.
- h. Open-bodied vehicles transporting materials likely to become airborne shall have such materials covered at all times if the control measure is necessary for the materials being transported.
- i. Within 6 months after the commencement of receiving waste, the permittee shall have completed the design and installation of a wheel wash facility for vehicles traveling upon the unpaved roadways covered by the terms and conditions of this permit. All vehicles traveling upon the unpaved roadways shall utilize a wheel wash prior to exiting the facility and traveling upon public roadways, at sufficient frequencies to ensure compliance. Should the initial design and installation of the wheel wash prove insufficient to demonstrate compliance with the terms and conditions of this permit, design modifications and improvements shall be made within three-months of written notification from the Hamilton County Department of Environmental Services.
- j. Prior to the installation of the wheel wash required in A.I.2.i, the maximum amount of waste accepted on a daily basis shall not exceed 800 tons per day. After the installation of the wheel wash this daily restriction shall no longer apply.
- k. Implementation of the above-mentioned control measures in accordance with the terms and conditions of this permit is appropriate and sufficient to satisfy the requirements of OAC rule 3745-17-08.
- l. The total combined particulate emissions from the paved and unpaved roadways shall not exceed 63.6 TPY. The total combined PM10 emissions from the paved and unpaved roadways shall not exceed 13.2 TPY.

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

**II. Operational Restrictions**

1. None

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

**III. Monitoring and/or Record Keeping Requirements**

1. Except as otherwise provided in this section, the permittee shall perform inspections of each of the paved and unpaved roadway segments and each parking area in accordance with the following frequencies:
  - paved and unpaved roadways minimum inspection frequency
  - all twice daily during operation
  - paved parking areas minimum inspection frequency
  - all twice daily during operation

2. The purpose of the inspections is to determine the need for implementing the above-mentioned control measures. The inspections shall be performed during representative, normal traffic conditions. No inspection shall be necessary for a roadway or parking area that is covered with snow and/or ice or if precipitation has occurred that is sufficient for that day to ensure compliance with the above-mentioned applicable requirements. Any required inspection that is not performed due to any of the above-identified events shall be performed as soon as such event(s) has (have) ended, except if the next required inspection is within one week.
3. The permittee may, upon receipt of written approval from the appropriate Ohio EPA District Office or local air agency, modify the above-mentioned inspection frequencies if operating experience indicates that less frequent inspections would be sufficient to ensure compliance with the above-mentioned applicable requirements.
4. The permittee shall maintain records of the following information:
  - a. the date and reason any required inspection was not performed, including those inspections that were not performed due to snow and/or ice cover or precipitation;
  - b. the date of each inspection where it was determined by the permittee that it was necessary to implement the control measures;
  - c. the dates the control measures were implemented; and
  - d. on a calendar quarter basis, the total number of days the control measures were implemented and the total number of days where snow and/or ice cover or precipitation were sufficient to not require the control measures.

The information required in 4.d. shall be kept separately for (i) the paved roadways and parking areas and (ii) the unpaved roadways and parking areas, and shall be updated on a calendar quarter basis within 30 days after the end of each calendar quarter.

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

**IV. Reporting Requirements**

1. The permittee shall submit quarterly deviation reports that identify any of the following occurrences:
  - a. each day during which an inspection was not performed by the required frequency, excluding an inspection which was not performed due to an exemption for snow and/or ice cover or precipitation; and
  - b. each instance when a control measure, that was to be implemented as a result of an inspection, was not implemented.

The deviation reports shall be submitted in accordance with the reporting requirements of the General Terms and Conditions of this permit.

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

**V. Testing Requirements**

1. Compliance with the visible emission limitations for the unpaved and paved roadways and parking areas identified above shall be determined in accordance with Test Method 22 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources," as such Appendix existed on July 1, 1996, and the modifications listed in paragraphs (B)(4)(a) through (B)(4)(d) of OAC rule 3745-17-03.
2. Compliance with the emission limitations outlined in this permit shall be determined by the emission factors, control efficiencies (if applicable) and the operational parameters as submitted in PTI 14-04858 and AP-42 sections 13.2.1 (dated 10/97) and 13.2.2 (dated 9/98).

Facility ID: 1431473443 Issuance type: Title V Draft Permit

**Part III - Terms and Conditions for Emissions Units**

[Go to the top of this document](#)

Facility ID: 1431473443 Emissions Unit ID: P001 Issuance type: Title V Draft Permit

**A. State and Federally Enforceable Section**

The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

- 1. None.

**I. Applicable Emissions Limitations and/or Control Requirements**

- 1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
new municipal solid waste (MSW) landfill (landfill capacity greater than 2.5 mm cubic yards and non-methane organic compound (NMOC) emission rate < 50 megagrams per year (mg/yr))	OAC rule 3745-31-05(A)(3) (PTI 14-3569)	Particulate emissions (PE) emissions shall not exceed 14.64 tons per year (TPY).  Particulate matter (PM) less than 10 micron (PM-10) shall not exceed 7.32 TPY.  The requirements of this rule also include compliance with the requirements of OAC rule 3745-17-07(B).  See sections A.I.2. and A.II. below.
	OAC rule 3745-17-07(B)	Visible emissions of any fugitive dust shall not exceed 20% opacity, as a 3-minute average, except as provided by rule.
	OAC rule 3745-17-08(B)	The control measures specified by this rule are the same as or less stringent than the control measures established pursuant to OAC rule 3745-31-05(A)(3).
	40 CFR, Part, Part 60, Subpart WWW	The NMOC emission rate for the Bond Road Landfill is currently less than 50 mg/yr. Therefore, at present the landfill is exempt from the control requirements as specified in 40 CFR, Part 60, Subpart WWW.  If the NMOC emission rate, upon the annual recalculation as required in 40 CFR 60.752(b)(1)(ii), is equal to or greater than 50 mg/yr, the permittee shall install a collection and control system in accordance with the time schedule specified in 40 CFR 60.752(b)(2).

2. **Additional Terms and Conditions**

- a. The material handling operations that are covered by this permit and subject to the above-mentioned requirements are listed below:
  - (a) unloading, conveying, transfer, and loading of solid wastes and topsoils
- b. The permittee shall ensure that solid wastes and topsoils are deposited, spread and compacted in such a manner as to minimize or prevent visible emissions of dust. This facility shall require all truckloads of solid waste to be unloaded in a manner which will minimize the drop height of the solid wastes. Any dusty materials, topsoils, or wastes likely to become airborne shall be watered as necessary prior to or during dumping operations in order to minimize or eliminate visible emissions of fugitive dust. Watering shall be done in such a manner as to avoid the pooling of liquids and runoff. No dusty material shall be dumped during periods of high wind speed unless it has been treated to prevent it from becoming airborne.
- c. Unvegetated cover material and soil in the waste disposal area must be periodically wetted with water to minimize or eliminate fugitive dust generation. The frequency and amounts of this water application will depend on weather conditions, cover material conditions and soil conditions.
- d. All vehicles hauling material shall be closed, covered or tarped coming to or leaving the facility in order to minimize visible emission of fugitive dust and to eliminate load loss.
- e. All wastes shall be covered with at least 6 inches of soil or alternative cover approved by the Director by the end of each day.
- f. There shall be no open burning in violation of OAC Chapter 3745-19 at this facility.

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

II. **Operational Restrictions**

- 1. This facility shall not accept for disposal any Regulated Asbestos-Containing Material (RACM) as defined in the NESHAP for Asbestos, 40 CFR, Part 61, Subpart M, section 141 amended 11/20/90 or any subsequent revisions. This regulation defines RACM as "(a) Friable asbestos material, (b) Category I nonfriable asbestos containing material (ACM) that has become friable, (c) Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading, or (d) Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations regulated by this subpart.

For asbestos materials, this facility shall be limited to accepting Category I and Category II nonfriable ACM that has not or will not be subjected to sanding, grinding, cutting, or abrading.

This facility shall ensure that any Category I and Category II nonfriable ACM which has not or will not be subjected to sanding, grinding, cutting, or abrading shall not become friable during processing at the landfill.

2. This facility shall be limited to accepting no more than 1,464,000 tons of material per calendar year (only 1% of the acceptable material can be C&D material as defined in RC 3714.01(c)). Based on an assumed density of 1,000 pounds per cubic yard of as received material, the facility shall be limited to accepting no more than 2,928,000 cubic yards per year.

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

### III. Monitoring and/or Record Keeping Requirements

1. The permittee shall inspect the material handling operations at the landfill (unloading, conveying, transfer, and loading of solid wastes and topsoils) twice daily during operation to ensure that the control measures as described in A.2.b, c, d and e are being implemented as described.

The permittee shall maintain records of the following information:

- a. all the dates and times during which inspections were performed;
- b. all the dates during which it was determined that any of the control measures described in Section A.2.a through f was not implemented; and
- c. on a calendar quarter basis, the total number of days any of the control measures was not implemented as described in Section A.2. of this permit.

The information shall be kept updated on a calendar quarter basis within 30 days of the end of each calendar quarter.

2. The permittee shall maintain records of the volume of material received per day on an as-received basis. These records shall be maintained for a period of not less than five years and the records shall be made available for review by the Director or his representative during normal business hours.
3. As required in 40 CFR 60.752(b)(1)(ii), the permittee shall recalculate the NMOC emission rate annually using the procedures specified in 40 CFR 60.754(a)(1) until such a time as the calculated NMOC emission rate is equal to or greater than 50 mg/yr, or the landfill is closed. The permittee shall collect and record the relevant information to be able to perform the calculations specified in 40 CFR 60.754(a)(1).

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

### IV. Reporting Requirements

1. The permittee shall submit quarterly deviation (excursion) reports that identify all days during which any control measures for the material handling operations was not implemented. The quarterly deviation reports shall be submitted in accordance with the reporting requirements in paragraph A.1.c of the General Terms and Conditions of this permit.
2. The permittee shall submit annual reports to the Hamilton County Department of Environmental Services that specify the total quantity of solid waste received in the previous year. The reports shall be received by January 31 of each year.
3. An amended design capacity report shall be submitted to the Ohio EPA providing notification of an increase in the design capacity of the landfill, within 90 days of an increase in the maximum design capacity of the landfill. This increase in design capacity may result from an increase in permitted volume of the landfill or an increase in the density as documented in the annual recalculation required in 40 CFR 60.758(f). This amended design capacity report shall meet the requirements of 40 CFR 60.757(a).
4. The permittee shall submit an annual report which details the annual NMOC emission rate from the landfill. This report shall be submitted by January 31 of each year and shall cover the previous calendar year operation.

[Go to the top of this document](#)

[Go to the top of Part III for this Emissions Unit](#)

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION.\*\*\*

### V. Testing Requirements

1. Compliance with the visible emission limitations shall be determined in accordance with Test Method 9 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources"), as such Appendix existed on July 1, 1996, and the modifications listed in paragraphs (B)(3)(a) through (B)(3)(b) of OAC rule 3745-17-03.
2. Emission Limitation:
 

14.64 TPY of PE

Applicable Compliance Method:

Multiply the maximum yearly cover soil use in tons/year by the emission factor of 0.02 lbs/ton (Ohio EPA RACM document emission factor, September 1980, Section 2.1.3). Then divide by 2,000 lbs/ton to convert to TPY of PE.
3. Emission Limitation:
 

7.32 TPY of PM-10

Applicable Compliance Method:

Multiply the maximum yearly cover soil use in tons/year by the emission factor of 0.02 lbs/ton (Ohio EPA RACM document emission factor, September 1980, Section 2.1.3). Then divide by 2,000 lbs/ton to convert to TPY, divide the result by 2 to determine TPY of PM-10.

4. The annual NMOC emissions from the landfill shall be calculated using either the equation provided for in 40 CFR 60.754(a)(1)(i) or 40 CFR 60.754(a)(1)(ii).
