RE: Title V OAC Chapter 3745-77
permit application submitted
09/24/96 for facility ID
has been (N/A) determined

to be preliminary complete

Dear Jeffrey A. Seppa:

This letter is in response to your submittal of the above-referenced application. The RAPCA has completed a preliminary completeness review of the documents and has concluded the application is complete. This completeness determination does not imply the application is approvable, only that we have determined we have enough information to continue a review of the application.

The next step in the processing of the application is for this office to complete a technical review. The technical reviews are completed on a "first-come, first served" basis. When the technical review is completed, a permit reviewer may contact you for additional information or for clarification of the application. Once the detailed technical review is complete, then the application will be processed.

Please be assured we will do everything possible to process your application in an expeditious manner. If you have any questions, please contact me at (513) 225-4435.

Sincerely,

Lorez Roussey
RAPCA
