Application Number: **08-3924**

Date: **January 27, 1999**

GENERAL PERMIT CONDITIONS

TERMINATION OF PERMIT TO INSTALL

Substantial construction for installation must take place within 18 months of the effective date of this permit. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

NOTICE OF INSPECTION

The Director of the Ohio Environmental Protection Agency, or his authorized representatives, may enter upon the premises of the above-named applicant during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, or to examine records or reports pertaining to the construction, modification or installation of the source(s) of environmental pollutants identified within this permit.

CONSTRUCTION OF NEW SOURCES

The proposed source(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources are inadequate or cannot meet applicable standards.

If the construction of the proposed source(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of Ohio Administrative Code (OAC) Rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations.

3 of 14 Pages

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet applicable standards.

PERMIT TO INSTALL FEE

In accordance with Ohio Revised Code 3745.11, the specified Permit to Install fee must be remitted within 30 days of the effective date of this permit to install.

PUBLIC DISCLOSURE

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC Rule 3745-49-03.

APPLICABILITY

This Permit to Install is applicable only to the contaminant sources identified. Separate application must be made to the Director for the installation or modification of any other contaminant sources.

4 of 14 Pages

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

BEST AVAILABLE TECHNOLOGY

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

PERMIT TO OPERATE APPLICATION

A Permit to Operate application must be submitted to the appropriate field office for each air contaminant source in this Permit to Install. In accordance with OAC Rule 3745-35-02, the application shall be filed no later than thirty days after commencement of operation.

SOURCE OPERATION AFTER COMPLETION OF CONSTRUCTION

This facility is permitted to operate each source described by this permit to install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws and regulations.

Facility Name: **Barrett Paving Materials Inc., #141**Application Number: **08-3924**Date: **January 27, 1999**AIR EMISSION SUMMARY

The air contaminant emissions units listed below comprise the Permit to Install for **Barrett Paving Materials Inc., #141** located in **Greene** County. The emissions units listed below shall not exceed the emission limits/control requirements contained in the table. This condition in no way limits the applicability of any other state or federal regulations. Additionally, this condition does not limit the applicability of additional special terms and conditions of this permit.

<u>Ohio EPA Source Number</u>	<u>Source Identification Description</u>	<u>BAT Determination</u>	<u>Applicable Federal & OAC Rules</u>	<u>Permit Allowable Mass Emissions and/or Control/Usage Requirements</u>
F006	#3 secondary 66" cone crusher 300 TPH; portable plant ** modifi- cation	*	3745-31-05	0.48 lb/hr and 2.1 TPY particulates
			NSPS 40 CFR Part 60, Subpart 000	15% opacity visible emissions
			3745-17-11 (B)(1)	The limits based on this rule are less stringent than the limits established above.
			3745-17-07 (B)(1)	The limits based on this rule are less stringent than the limits established above.
			3745-17-08	OAC rule 3745- 17-08(B) shall only be deemed applicable if this emissions unit is relocated to an Appendix A area.

Facility Name: **Barrett Paving Materials Inc., #141**Application Number: **08-3924**Date: **January 27, 1999**

<u>Ohio EPA Source Number</u>	<u>Source Identification Number</u>	<u>BAT Determination</u>	<u>Applicable Federal & OAC Rules</u>	<u>Permit Allowable Mass Emissions and/or Control/Usage Requirements</u>
F007	materials handling (5-400 TPH conveyors and transfer points); portable plant	*	3745-31-05 NSPS 40 CFR Part 60, Subpart 000 3745-17-11 (B)(1) 3745-17-07 (B)(1) 3745-17-08	0.30 lb/hr and 1.25 TPY particulates 10% opacity visible emissions The limits based on this rule are less stringent than the limits established above. The limits based on this rule are less stringent than the limits established above. OAC rule 3745-17-08(B) shall only be deemed applicable if this emissions unit is relocated to an Appendix A area.
F001	#2 secondary impact crusher 75 TPH; portable plant ** modification	*	3745-31-05 NSPS 40 CFR Part 60, Subpart 000	0.12 lb/hr and 0.53 TPY particulates 15% opacity visible emissions

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

<u>Ohio EPA Source Number</u>	<u>Source Identification Number</u>	<u>BAT Determination</u>	<u>Applicable Federal & OAC Rules</u>	<u>Permit Allowable Mass Emissions and/or Control/Usage Requirements</u>
F001 cont'd			3745-17-11 (B)(1)	The limits based on this rule are less stringent than the limits established above.
			3745-17-07 (B)(1)	The limits based on this rule are less stringent than the limits established above.
			3745-17-08	OAC rule 3745-17-08(B) shall only be deemed applicable if this emissions unit is relocated to an Appendix A area.

* BAT is determined to be compliance with applicable OAC rules and specified allowable mass emission rates; compliance with NSPS 40 CFR Part 60, Subpart 000; high moisture content, recordkeeping, reporting, and compliance with the opacity limits.

** Modification: Emissions Unit F001 under PTI 08-2186, as issued on February 13, 1991, allowed 3.0 TPY particulates for the #2 crusher and #3 crusher combined. Both ran at 75 TPH, so each crusher was allowed approximately 1.5 TPY particulates. Therefore, this PTI modification represents a decrease in allowable emissions of 0.97 TPY for crusher #2 (F001), as the emissions are decreasing from 1.5 TPY to 0.53 TPY. For crusher #3 (F006), the replacement will increase emissions from 1.5 TPY to 2.10 TPY for an increase of 0.60 TPY particulates with this PTI modification.

SUMMARY
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS

<u>Pollutant</u>	<u>Tons/Year</u>
Particulates	3.88

NSPS REQUIREMENTS

The following sources are subject to the applicable provisions of the New Source Performance Standards (NSPS) as promulgated by the United States Environmental Protection Agency, 40 CFR Part 60.

<u>Source Number</u>	<u>Source Description</u>	<u>NSPS Regulation (Subpart)</u>
F006, F007	secondary crusher, 5 conveyors	0000

The application and enforcement of these standards are delegated to the Ohio EPA. The requirements of 40 CFR Part 60 are also federally enforceable.

Pursuant to the NSPS, the source owner/operator is hereby advised of the requirement to report the following at the appropriate times:

- a. construction date (no later than 30 days after such date);
- b. anticipated start-up date (not more than 60 days or less than 30 days prior to such date);
- c. actual start-up date (within 15 days after such date); and
- d. date of performance testing (If required, at least 30 days prior to testing).

Reports are to be sent to:

Ohio Environmental Protection Agency
DAPC - Permit Management Unit
P.O. Box 163669
Columbus, OH 43216-3669

and **Regional Air Pollution Control Agency**
Montgomery County Health Department
451 West Third Street
P. O. Box 972
Dayton, Ohio 45422

REPORTING REQUIREMENTS

Unless otherwise specified, reports required by the Permit to Install need only be submitted to **Regional Air Pollution control Agency, Montgomery County Health Department, 451 West third Street, P. O. Box 972, Dayton, Ohio 45422.**

ADDITIONAL SPECIAL TERMS AND CONDITIONS

A. Operational Restrictions

1. The maximum annual production rate for emissions unit F006 shall not exceed 2.63 million tons.
2. The maximum annual production rate for emissions unit F007 shall not exceed 3.5 million tons.
3. The maximum annual production rate for emissions unit F001 shall not exceed 0.657 million tons.

B. Monitoring and/or RecordKeeping Requirements

1. The permittee shall maintain monthly records of the crushed stone produced in each emissions unit, F006, F007, and F001.
2. Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit. Such records may be maintained in computerized form.

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

C. Reporting Requirements

1. The permittee shall submit annual reports that identify any exceedances of the annual production rate limitations for emissions units F006, F007, and F001, as well as the corrective actions that were taken to achieve compliance. These reports shall be submitted by January 31 of each year.

D. Testing Requirements and Compliance Method Determinations

1. Within 60 days of reaching maximum production, this facility shall conduct, or have conducted, an opacity test (during the period May 1 through September 30, 1999) for F006, F007, and F001 in order to demonstrate compliance with the specified allowable opacity limitation. The opacity test shall be conducted in accordance with the test method specified in 40 CFR Part 60 Subpart 000 [reference section 60.675(D)].

Not later than 30 days prior to the proposed test date(s), this facility shall submit an Intent to Test notification to the Regional Air Pollution Control Agency (RAPCA). The Intent to Test notification shall describe in detail the proposed test methods and procedures, the source operating parameters, the time(s) and the date(s) of the test(s). Failure to submit such notification for review and approval prior to the test(s) may result in RAPCA's refusal to accept the results of the opacity test(s).

Personnel from RAPCA shall be permitted to witness the test(s). Personnel from this facility shall acquire data and information regarding the source operating parameters (including but not limited to, water flow rates and pressure employed for particulate emission and opacity control at this plant). Data reduction of opacity readings (to determine compliance with opacity limitations) shall be based upon 3-minute averages.

A comprehensive written report on the results of the opacity test(s) (including opacity levels and the source operating parameters) shall be submitted to RAPCA within 30 days following completion of the test(s).

2. Compliance with the emission limitations in this permit for emissions unit F006 shall be determined in accordance with the following method(s):

11 of 14 Pages

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

- a. Emission Limitation-
0.48 lb/hr particulates

Applicable Compliance Method-
Compliance shall be determined by multiplying the maximum hourly production of 300 tons/hour by the emission factor of 0.0016 lb/ton, as specified in USEPA reference document AP-42, Table 11.19.2-2.

- b. Emission Limitation-
2.1 TPY particulates

Applicable Compliance Method-
Compliance shall be based upon the record keeping specified in section B.1., summing the 12 monthly production records for the calendar year, and then multiplying the sum by the emission factor of 0.0016 lb/ton, as specified in AP-42, Table 11.19.2-2, and dividing by 2,000 pounds per ton.

- c. Emission Limitation-
15% opacity visible emissions

Applicable Compliance Method-
Compliance shall be determined by visible emission evaluations performed in accordance with OAC rule 3745-17-03(B)(3) using the methods and procedures specified in USEPA Reference Method 9 and 40 CFR 60.675 Subpart 000.

- 3. Compliance with the emission limitations in this permit for emissions unit F007 shall be determined in accordance with the following method(s):

- a. Emission Limitation-
0.30 lb/hr particulates

Applicable Compliance Method-
Compliance shall be determined by multiplying the maximum hourly production of 400 tons/hour by the emission factor of 0.00014 lb/ton, as specified in USEPA reference document AP-42, Table 11.19.2-2, and multiplying by 5 to include all five conveyors.

- b. Emission Limitation-
1.25 TPY particulates

12 of 14 Pages

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

Applicable Compliance Method-

Compliance shall be based upon record keeping specified in section B.1., summing the 12 monthly production rates for the calendar year, and then multiplying the sum by the emission factor of 0.00014 lb/ton, as specified in USEPA reference document AP-42, Table 11.19.2-2, and dividing by 2,000 pounds per ton.

- c. Emission Limitation-
10% opacity visible emissions

Applicable Compliance Method-

Compliance shall be determined by visible emission evaluations performed in accordance with OAC rule 3745-17-03(B)(3) using the methods and procedures specified in USEPA Reference Method 9 and 40 CFR 60.675 Subpart 000.

- 4. Compliance with the emission limitations in this permit for emissions unit F001 shall be determined in accordance with the following method(s):

- a. Emission Limitation-
0.12 lb/hr particulates

Applicable Compliance Method-

Compliance shall be determined by multiplying the maximum hourly production of 75 tons/hour by the emission factor of 0.0016 lb/ton, as specified in USEPA reference document AP-42, Table 11.19.2-2.

- b. Emission Limitation-
0.53 TPY particulates

Applicable Compliance Method-

Compliance shall be based upon the record keeping specified in section B.1., summing the 12 monthly production records for the calendar year, and then multiplying the sum by the emission factor of 0.0016 lb/ton, as specified in AP-42, Table 11.19.2-2, and dividing by 2,000 pounds per ton.

- c. Emission Limitation-
15% opacity visible emissions

13 of 14 Pages

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

Applicable Compliance Method-
Compliance shall be determined by visible emission evaluations performed in accordance with OAC rule 3745-17-03(B)(3) using the methods and procedures specified in USEPA Reference Method 9 and 40 CFR 60.675 Subpart 000.

E. Miscellaneous Requirements

Notice to Relocate a Portable or Mobile Source

1. Pursuant to Ohio Administrative Code (OAC) rule 3745-31-03(A)(1)(p)(i), the permittee of a portable or mobile emissions unit may relocate within the State of Ohio without first obtaining a PTI providing the following criteria are met:
 - a. the portable emissions unit is equipped with the best available control technology for such portable emissions unit;
 - b. the portable emissions unit is operating pursuant to a currently effective permit to operate (PTO);
 - c. the applicant has provided proper notice of intent to relocate the portable emissions unit to the RAPCA and the appropriate field office having jurisdiction over the new site within a minimum of thirty days prior to the scheduled relocation; and,
 - d. in RAPCA's and the appropriate field office's judgement, the proposed site is acceptable under the rule 3745-15-07 of the Administrative Code.
2. In the alternative, pursuant to OAC rule 3745-31-03(A)(1)(p)(ii), the permittee of a portable or mobile emissions unit may relocate within the State of Ohio without first obtaining a PTI providing the following criteria of OAC rule 3745-31-05(F) are met:
 - a. the portable emissions unit permittee possesses an Ohio EPA PTI, PTO or registration status;
 - b. the portable emissions unit is equipped with best available technology;

14 of 14 Pages

Facility Name: **Barrett Paving Materials Inc., #141**

Application Number: **08-3924**

Date: **January 27, 1999**

- c. the portable emission unit owner has identified the proposed site to Ohio EPA;
 - d. Ohio EPA has determined that the portable emissions unit, at the proposed site, will have an acceptable environmental impact;
 - e. a public notice, consistent with Chapter 3745-47 of the Administrative Code, is published in the county where the proposed site is located;
 - f. the owner of the proposed site has provided the portable emissions unit owner with approval or equivalent declaration that it is acceptable to the site owner to move the portable emissions unit to this proposed site; and,
 - g. the portable emissions unit owner has provided Ohio EPA with fifteen days written notice of the relocation.
3. Any site approvals issued by the Ohio EPA, pursuant to E.1. or E.2. above, shall be valid for no longer than three years and are subject to renewal.

In order for the RAPCA and the appropriate field office having jurisdiction over the new site to determine compliance with all of the above criteria, the owner or operator of the portable or mobile emissions unit must file a "Notice of Intent to Relocate", within the specified time frame (30 or 15 days) prior to the relocation of the emissions unit with the RAPCA (451 W. Third Street, Dayton, OH 45422) and the appropriate field office having jurisdiction over the new site. Upon receipt of the notice, the RAPCA and/or appropriate field office having jurisdiction over the new site, will evaluate the request in accordance with the above criteria.

Failure to submit said notification and to receive Ohio EPA approval prior to relocation of the emissions unit may result in fines and civil penalties.
