

Erica and Elisa,

0306020054 has hardcopy registrations in NWDO, but there are no record of them in our systems.

Erica, please manufacture fake registration records in STARS for B001 on 5/17/91 and P004 on 2/21/92. The facility and EUs are in STARS now.

Thanks, Erin

>>> Jay Liebrecht 04/14/04 11:14AM >>>  
Erin,

I have entered the facility and emission unit information into STARS.

The facility contact is: Steve Webb - (419) 996-4825  
1005 West Grand Ave.  
Lima, OH 45801

Please let me know if you need any additional information from American Trim.

Thanks,  
Jay

>>> Erin Milner 03/31/04 09:29AM >>>  
Jay, This is the facility I called about because I had no record of it. Please enter it into STARS. Once that is done, e-mail me so that I can ask Erica Engel-Ishida to "fake" the issuances of the registrations. This will ensure that we don't lose track of this facility or it's emission units.

Also, please send me the contact information (name, address, & phone) so that I can have Elisa enter it into Non-Title V.

Thank you, Erin

**RE: Final Chapter 3745-35 Notice of Registration**

**B001**

American Trim LLC, Product Center 3 (03-06-02-0054) Steve Webb 1005 West Grand Ave.  
Lima, OH 45801

Dear Steve Webb:

This letter is to notify you that the application(s) you submitted for a permit(s) to operate for the above referenced air contaminant emission unit(s) has been reviewed by the Ohio EPA.

The air emission potential from the emission unit(s) is (are) of an amount and type that is considered minimal by the Ohio EPA in accordance with OAC rule 3745-35-05. Consequently, the Ohio EPA staff has recommended to the Director that the emission unit(s) is (are) to be placed on registration status. This means that the emission unit(s) is (are) placed in our computer file permanent record. Further, you will not be required to renew a permit for this (these) emission unit(s) every three years.

This action does not affect your legal obligation to comply with all applicable State and federal regulations including emission regulations. Also, this action in no way precludes the Director's option of requiring, in the future, an updated application to reevaluate the need to issue a permit to operate for this emission unit(s).

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Review Appeals Commission within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street, Room 222  
Columbus, Ohio 43215

Sincerely,

A handwritten signature in black ink, appearing to read "Christopher Jones", is written over a solid black horizontal line.

Christopher Jones, Director  
Ohio Environmental Protection Agency
