RE: Title V OAC Chapter 3745-77
permit application submitted February 27,
1996 for facility ID 0354010123
completeness review

April 11, 1996

Michael D. Lhamon
Huffy Bicycle Company
410 Grand Lake Road
P.O. Box 318
Celina, Ohio 45822 - 0318

Dear Mr. Lhamon:

In the process of completing a preliminary completeness review of the above-referenced application, Northwest District Office staff have concluded that further information must be provided to evaluate the application and/or the application is missing some required information.

A checklist identifying the deficiencies and/or additional information required is enclosed.

Since the application review cannot proceed without the additional information, it is imperative that the company immediately respond to this request.

Northwest District Office is requesting a complete response to the findings of the preliminary review specified on the enclosed checklist within fifteen (15) days of the date of this letter.

If a complete and acceptable response is not provided within the stated deadline, this office will proceed with preparing a recommendation that the application be deemed incomplete, in accordance with Ohio Administrative Code (OAC) rule 3745-77-05(B)(3).

If the company has any questions concerning this letter, please contact me at 419-373-3117. I may also be contacted electronically by E-mail at: paul_chad@central.epa.ohio.gov

Sincerely,

Paul Chad
Division of Air Pollution Control

pc: NWDO File
Enclosure

The following deficiencies were found in the preliminary completeness review:

Regulated pollutants emitted from the facility were not addressed in the summary of facility emissions and/or other applicable portions of the application. These were:

Applicable general facility requirements were not included in the application as required.

Emissions unit(s) for which we have information were not included in the application.

Activity flow diagrams for the following emissions unit(s) were not provided as specified in the application:

- X Emissions activities category forms were missing or were concluded to be incorrect for the following emissions unit(s): K003

Known pollutant emissions were not identified for the following emissions units:

Applicable emission limits or control requirements were not included for the following emissions unit(s):

An emissions unit level application form was not included for the following emissions unit(s):

If your company determines the above deficiencies exist in the application, a revised and corrected application must be submitted via a "corrected form submittal" on the BBS. Hard copy submittals for revising the application are unacceptable.
