The Ohio Art Company
Arthur Clark
One Toy Street
Bryan, OH 43506

Enclosed Please find a modification to the Ohio EPA Permit To Install referenced above which will modify the terms and conditions.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Directors action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
309 South Fourth Street, Room 222
Columbus, Ohio 43215

Sincerely,

Michael W. Ahern, Manager
Permit Issuance and Data Management Section
Division of Air Pollution Control

**Permit To Install
Terms and Conditions**

**Issue Date: 6/20/2006
Effective Date: 6/20/2006**

FINAL ADMINISTRATIVE MODIFICATION OF PERMIT TO INSTALL 03-13026

Application Number: **03-13026**

APS Premise Number: **0386010161**

Permit Fee: **\$0**

Name of Facility: **The Ohio Art Company**

Person to Contact: **Arthur Clark**

Address: **One Toy Street
Bryan, OH 43506**

Location of proposed air contaminant source(s) [emissions unit(s)]:
**One Toy Street
Bryan, OHIO**

Description of modification:

4 color lithographic press with trailing (UV) coater. Administrative modification to PTI 03-13026 previously issued on May 13, 2003 to allow for change in permit allowables.

The above named entity is hereby granted a modification to the permit to install described above pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this modification does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described source(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans included in the application, the above described source(s) of pollutants will be granted the necessary operating permits.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

GENERAL PERMIT CONDITIONS

TERMINATION OF PERMIT TO INSTALL

Substantial construction for installation must take place within 18 months of the effective date of this permit. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

NOTICE OF INSPECTION

The Director of the Ohio Environmental Protection Agency, or his authorized representatives, may enter upon the premises of the above-named applicant during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, or to examine records or reports pertaining to the construction, modification or installation of the source(s) of environmental pollutants identified within this permit.

CONSTRUCTION OF NEW SOURCES

The proposed source(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources are inadequate or cannot meet applicable standards.

If the construction of the proposed source(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of Ohio Administrative Code (OAC) Rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet applicable standards.

PERMIT TO INSTALL FEE

In accordance with Ohio Revised Code 3745.11, the specified Permit to Install fee must be remitted within 30 days of the effective date of this permit to install.

PUBLIC DISCLOSURE

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC Rule 3745-49-03.

APPLICABILITY

This Permit to Install is applicable only to the contaminant sources identified. Separate application must be made to the Director for the installation or modification of any other contaminant sources.

BEST AVAILABLE TECHNOLOGY

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

PERMIT TO OPERATE APPLICATION AND OPERATION AFTER COMPLETION OF CONSTRUCTION

If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this Permit To Install is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within ninety (90) days after commencing operation of the source(s) covered by this permit.

SOURCE OPERATION AFTER COMPLETION OF CONSTRUCTION

This facility is permitted to operate each source described by this permit to install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws and regulations.

AIR EMISSION SUMMARY

The air contaminant emissions units listed below comprise the Permit to Install for **The Ohio Art Company** located in **WILLIAMS** County. The emissions units listed below shall not exceed the emission limits/control requirements contained in the table. This condition in no way limits the applicability of any other state or federal regulations. Additionally, this condition does not limit the applicability of additional special terms and conditions of this permit.

<u>Ohio EPA Source Number</u>	<u>Source Identification Description</u>	<u>BAT Determination</u>	<u>Applicable Federal & OAC Rules</u>	<u>Permit Allowable Mass Emissions and/or Control/Usage Requirements</u>
K010	4 color lithographic press with trailing (UV) coater (administrative modification to PTI 03-13026 previously issued on May 13, 2003 to allow for change in permit allowables)	Use of UV coatings, compliance with the "air toxics" policy and with the conditions and limitations of this permit.	3745-31-05	0.30 pound of VOC per gallon of coating, excluding water and exempt solvents. 5.11 pounds VOC/hour and 22.38 tons VOC/year from coating/printing operations. 915.6 pounds VOC/month and 5.50 tons VOC/year from cleanup operations.
			3745-21-09 (U)(1)(a)	*

* The emissions limit based on this applicable rule is less stringent than the limit established pursuant to OAC rule 3745-31-05.

SUMMARY
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS

<u>Pollutant</u>	<u>Tons/Year</u>
VOC	27.88

WASTE DISPOSAL

The owner/operator shall comply with any applicable state and federal requirements governing the storage, treatment, transport and disposal of any waste material generated by the operation of the sources.

MAINTENANCE OF EQUIPMENT

This source and its associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices and the recommendations of the respective manufacturers in order to minimize air contaminant emissions.

MALFUNCTION/ABATEMENT

In accordance with OAC RULE 3745-15-06, any malfunction of the source(s) or associated air pollution control system(s) shall be reported immediately to the **Ohio EPA, Northwest District Office, 347 North Dunbridge Road, Bowling Green, OH 43402.**

Except as provided by OAC Rule 3745-15-06(A)(3), scheduled maintenance of air pollution control equipment that requires the shutdown or bypassing of air pollution control system(s) must be accompanied by the shutdown of the associated air pollution sources.

AIR POLLUTION NUISANCES PROHIBITED

The air contaminant source(s) identified in this permit may not cause a public nuisance in violation of OAC Rule 3745-15-07.

ADDITIONAL SPECIAL TERMS AND CONDITIONS

Introduction

The permittee has submitted a Permit to Install (PTI) for the installation of a new 4 Color Press with Trailing UV Coater.

A. Applicable Emission Limitations and/or Control Requirements

1. No additional applicable emission limitations and/or control requirements than those specified in the Air Emissions Summary.

B. Operational Restrictions

1. Pursuant to Engineering Guide No. 69, modeling to demonstrate compliance with the Ohio EPA's Air Toxic Policy was not necessary since the emissions unit's maximum annual emissions for each toxic compound will be less than 1. Ton. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified permit to install prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would result in an increase in emissions of any pollutant that has a listed TLV to above 1.0 ton per year may require the permittee to apply for and obtain a new permit to install.

2. The permittee shall employ only UV coatings/inks in emissions unit K010.

C. Monitoring and/or Recordkeeping Requirements

1. The permittee shall maintain the following monitoring and/or recordkeeping requirements for coating/cleanup material usage in emissions unit K010 on a monthly basis:
 - a. The name and identification number of each coating/ink/cleanup material, as applied; and,
 - b. The volatile organic compound (VOC) content of each coating, in pounds per gallon, on an "as applied" basis.
2. The permittee shall collect and record the following information each month for the purpose of determining an annual VOC emissions:
 - a. The VOC content of each coating/ink employed, in pounds per gallon;
 - b. The VOC content of each cleanup material employed, in pounds per gallon;
 - c. The number of gallons of each coating employed and the number of lbs of each ink employed;
 - d. The number of gallons of each cleanup material employed;
 - e. The VOC emissions from each coating/ink employed, in pounds per month (a x c);
 - f. The total VOC emissions rate for all coatings/inks [sum of (e)];
 - g. The VOC emissions from each cleanup material employed, in pounds per month (b x d);
 - h. The total VOC emissions rate for all cleanup materials employed [sum of (g)];
 - i. The annual, year-to-date, VOC emissions from all coatings/inks/cleanup materials employed, (sum of (f) for coatings and sum of (h) for cleanup materials for each calendar month to date from January to December).

3. Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings, if a strip recorder is employed for continuous monitoring instrumentation, and copies of all reports required by the permit. Such records may be maintained in computerized form.

D. Reporting Requirements

1. The permittee shall submit quarterly written reports for emissions unit K010 to the appropriate Ohio EPA, Northwest District Office of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures taken. If no deviations occurred during a calendar year, the permittee shall submit an annual report, which states that no deviations occurred during that year. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

E. Testing Requirements (Compliance Method Determinations)

1. Compliance with the emissions limitations in this permit to install shall be determined in accordance with the following methods:

- a. Emission Limitation

0.30 lb VOC per gallon minus water and exempt solvents

Applicable Compliance Method

Compliance shall be based upon the recordkeeping requirements specified in section C.1. of this permit. Formulation data or USEPA method 24 may be used to determine the VOC content of the coatings.

- b. Emission Limitation

5.11 lbs VOC/hr from coating/printing operations

Applicable Compliance Method

The hourly VOC emission limitation is based on the emission units potential to emit*. Therefore, no hourly recordkeeping, deviation reporting or compliance method calculations are required to demonstrate compliance with this limitation.

- * The potential to emit for this emissions unit was based on a maximum VOC content of 0.30 lb per gallon and a maximum hourly usage rate of 8.11 gallons per hour from coating operations + a maximum OC content of 0.04 lb OC/lb ink and a maximum hourly usage rate of 67 lbs ink/hr from printing operations..

c. Emission Limitation

22.38 tons VOC/yr from coating operations

Applicable Compliance Method

Compliance shall be determined based upon the recordkeeping requirements specified in section C.2.

d. Emission Limitation

915.6 lbs VOC/month & 5.50 TPY from cleanup operations

Applicable Compliance Method

Compliance shall be determined based upon the recordkeeping requirements specified in section C.2.
