Dear Charles E Clouser:

This letter is in response to your submittal of the above-referenced application. The Northwest District Office has completed a preliminary completeness review of the documents and has concluded the application is complete. This completeness determination does not imply the application is approvable, only that we have determined we have enough information to continue a review of the application.

The next step in the processing of the application is for this office to complete a technical review. The technical reviews are completed on a "first-come, first serve" basis. When the technical review is completed, a permit reviewer may contact you for additional information or for clarification of the application. Once the detailed technical review is complete, then the application will be processed.

Please be assured we will do everything possible to process your application in an expeditious manner. If you have any questions, please contact me at (419) 352-8461.

Sincerely,

Julie Ackerman  
Northwest District Office
