Ohio Environmental Protection Agency
Division of Surface Water
P.O. Box 1049
Columbus, Ohio 43216-1049
ATTN: Mr. Ric Queen

RECEIVED
APR 11 2016
OHIO EPA NEDO

Dear Mr. Butler:

Enclosed is the Clean Water Act Section 404(a) Public Notice and Section 401 Water Quality Certification (WQC) application for the proposed discharge of dredged material associated with our scheduled 2016 maintenance dredging project at Lorain Harbor, Ohio. This project entails the maintenance dredging of authorized Federal navigation channels, and placement of the associated dredged material in the Harbor's existing, authorized open-lake area in Lake Erie. The Public Notice has been prepared in conformance with U.S. Army Corps of Engineers (USACE) regulation, "Practice and Procedure: Final Rule for Operation and Maintenance of Army Corps of Engineers Civil Works Projects involving the Discharge of Dredged Materials into Waters of the United States or Ocean Waters," 33 Code of Federal Regulations (CFR) 337.1.

The USACE - Buffalo District is requesting Ohio Environmental Protection Agency (OEPA) WQC for the discharge of dredged material associated with the scheduled 2016 maintenance dredging of Lorain Harbor, or waiver thereof, under Section 401 of the Clean Water Act.

The following items are contained within this package:

- a. Enclosure 1 is the Section 404(a) Public Notice.
- b. Enclosure 2 is our Section 401 WQC application.

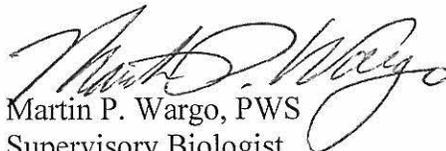

SUBJECT: Lorain Harbor, Lorain County, Ohio - Request for Section 401 Water Quality Certification for Scheduled 2016 Maintenance Dredging Operation

Please note that all National Environmental Policy Act (NEPA) documents (i.e., Environmental Impact Statements or Environmental Assessments) and Section 404(b)(1) Evaluation(s) have been completed for this maintenance dredging project, and were previously furnished to your office.

As you know, we require WQC in order to accept contract bids on this project. The bid opening date has been scheduled for July 7, 2016 and our goal is to secure the WQC by this date. As has been standard practice with our less controversial dredging projects recently, we respectfully request that no public hearing be scheduled for this application unless significant comments are received specifically requesting one. Please advise us regarding the status of the WQC by April 27, 2016. We appreciate your cooperation in this matter.

Questions pertaining to this matter should be directed to Mr. Michael Voorhees at (716) 879-4488, by writing to the following address: U.S. Army Corps of Engineers, 1776 Niagara Street, Buffalo, New York, 14207-3199, or by e-mail at: michael.e.voorhees@usace.army.mil.

Sincerely,

Martin P. Wargo, PWS
Supervisory Biologist
