C. Brief Project Description/Purpose: Dominion Transmission, Inc. (DTI) is proposing pipeline replacement and minor modifications to existing aboveground facilities as part of the Lebanon West II Project (Project). DTI plans to replace 10 segments of the TL-400 natural gas pipeline totaling 9.88 miles (mi) across Tuscarawas, Licking, Muskingum, Harrison, Coshocton, Columbiana, and Carroll Counties, Ohio (OH). Changes to aboveground facilities will occur in Licking and Fayette Counties, OH..		
D. Construction Timeframe (Provide ~start and end dates): September 2015 November 2016		
E. Is any portion of the activity complete now? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO Is this an "After-The-Fact" permit application? <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO If YES to either, describe the extent of completed portion of the activity below and the unauthorized impacts on waters of the state: The original permit provided clearance for the installation of the pipeline. This Permit Modification is being submitted for additional workspace in wetland areas for the removal of the old pipeline. Once installation of each segment is completed, DTI will tie in to the existing line then remove the pipe in upland areas. There is currently not enough workspace in many of the wetlands to remove the pipe in those areas; therefore, this modification is being prepared for the additional space necessary to remove the pipeline in many of the wetland areas.
