

## TABLE OF CONTENTS

- 10a) Description of Work & Placement of Fill**  
Refer to:  
Type and Quantity of Dredged and Fill Material  
Impact Determination  
Clean Water Act 404 Alternative Analysis
- 10b) Lowering of Water Quality, Endangered Species, Fish Species, Wetland Delineation**  
Refer to:  
Jurisdictional Determination Report  
Jurisdictional Determination Letter  
Impact Determination  
Clean Water Act 404 Alternative Analysis
- 10c) Technical Feasibility, Cost Effectiveness, and Availability**  
Refer to:  
USACE NEPA REQUIREMENTS  
Impact Determination  
Clean Water Act 404 Alternative Analysis
- 10d) Regional Sewage Collection and Treatment Facilities**  
Refer to:  
Cumulative Impact Assessment
- 10e) Government and/or Privately Sponsored Conservation Projects**  
Refer to:  
Cumulative Impact Assessment
- 10f) Cost of Proposed Water Pollution Controls**  
Refer to:  
Drainage Control Cost Spreadsheet  
Demonstration that Sediment Control Structures would be located as close as practical to the fill
- 10g) Impacts on Human Health & Overall Quality of the Water Resource**  
Refer to:  
Stream and Wetland Functional Assessment  
Description of the Aquatic Environment Directly Affected  
Cumulative Impact Assessment
- 10h) Social & Economic Benefits Generated by the Project**  
Refer to:  
USACE NEPA REQUIREMENTS  
Impact Determination  
Clean Water Act 404 Alternative Analysis

**10i) Loss of Social & Economic Benefits due the Project**

Refer to:

USACE NEPA REQUIREMENTS

Cumulative Impact Assessment

**10j) Environmental Benefits Lost & Gained (Water Quality, Endangered Species, Aquatic life)**

Refer to:

USACE NEPA REQUIREMENTS

Cumulative Impact Assessment

Clean Water Act 404 Alternative Analysis

**10k) Description of Mitigation Techniques**

Refer to:

Compensatory Mitigation Plan

Adaptive Management Plan

Biological and Chemical Sampling Plan

Biological and Chemical Sampling Report
