 Attachments: [unclear].png

EPA is required to have a description of the operations in the public notice. Therefore, we use the NAICS description.

3745-49.08 Contents of public notices.

(A) Public notices of actions shall include the following:

- (1) The name of the agency.
- (2) The address and telephone number of the locations where agency files and records pertaining to the action are located and may be inspected and copied.
- (3) Instructions for persons desiring to obtain additional information, a copy of any fact sheet prepared, or a copy of the action.
- (4) Instructions to persons desiring to be included on the mailing list provided for in section 3745.07 of the Revised Code.
- (5) The name and address of the person to whom the action was issued.
- (6) A brief description of the activities or operations that are the subject of the action.
- (7) The location of the source, facility, or subject of the action, including a street address if one is known.
- (8) A statement summarizing the action.
- (9) The date of issuance of the action.

The Stars2 reference table for WRAPN parameters, which is used by NOTICES, that the notice text is pulling in the NAICS\_DESC field. The NAICS code is 327320 for Metro Materials is 'Ready Mix Concrete Manufacturing'. If we remove that field and just say, facility referenced above... then the notices will be correct.

**NAICS**

327320 Ready-Mix Concrete Manufacturing
