**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 certification for a project to construct a new middle school and access road that would impact Ax Factory Run and adjacent wetlands. The project is located south of Ax Factory Run, west of Raccoon Road, north of a residential area and east of Fitch High School in Austintown, Mahoning County, Ohio. The application was submitted by the Austintown Board of Education, 225 Idaho Road, Youngstown, Ohio, 44515. The U.S. Army Corps of Engineers' (Pittsburgh District) Public Notice Number for this project is 200200235. The Ohio EPA ID Number for this project is 042145.

The applicant submitted three alternatives for this project (Preferred, Minimal, and Non-degradation Alternative). The preferred alternative would fill 4.37 acres of jurisdictional wetlands and 0.19 acres of isolated wetlands and 85 linear feet of Ax Factory Run. The minimal degradation alternative would fill 1.75 acres of jurisdictional wetlands and 0.19 acres of isolated wetlands and 75 linear feet of Ax Factory Run. The applicant has indicated there is not a non-degradation alternative, as no land is available to alter the project footprint.

The discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality in Ax Factory Run and adjacent wetlands. The review of the application will be conducted, and a decision whether to grant or deny the application will be made, in accordance with Chapters 3745-1 and 3745-32 of the Ohio Administrative Code (OAC) and 6111 of the Ohio Revised Code (ORC). In accordance with OAC 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of the water quality. Other alternatives resulting in lesser or no degradation, or lowering of water quality, will be considered by Ohio EPA during the review process.

No exclusions or waivers, as outlined by Paragraph 3745-1-05 (D) of the Antidegradation Rule apply or may be granted by the Director of Ohio EPA.

Starting October 28, 2004, copies of the application for the certification and technical support information may be inspected at Ohio EPA/DSW, Lazarus Government Center, 122 South Front Street, Columbus, Ohio, by first calling (614) 644-2001. The application can be made available at Ohio EPA District Offices by calling the same number.

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA/DSW, Attention: Permits Processing Unit, P.O. NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 certification for a project to construct a two-lane concrete boat launch ramp, an associated parking area, boarding floats, a courtesy dock, and rock channel protection. The application was submitted by City of Zanesville, 401 Market Street, Zanesville, Ohio 43701. As required by the Antidegradation Rule, three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would be the dredging of the Muskingum River, the construction of a 43 foot x 77-foot, 2-inch boat ramp, and the placement of rock channel protection along 467 of the bank of the Muskingum River. The applicant's proposed minimal degradation alternative, if approved, would be the construction of a 43 foot x 77-foot, 2-inch boat ramp, and the placement of rock channel protection along 467 of the bank of the Muskingum River. The applicant's proposed non-degradation alternative, if approved, would be to not construct the project. The project is located at Riverside Park, Zanesville, Muskingum County, Ohio. The Huntington District of the U.S. Army Corps of Engineers Number for this project is 200401025. The Ohio EPA ID Number for this project is 042098.

The discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Muskingum River. The review of the application will be conducted, and a decision whether to grant or deny the application will be made, in accordance with Chapters 3745-1 and 3745-32 of the Ohio Administrative Code (OAC). In accordance with OAC 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of the water quality. Other alternatives resulting in lesser or no degradation, or lowering of water quality, will be considered by Ohio EPA during the review process.

No exclusions or waivers, as outlined by Paragraph 3745-1-05 (D) of the Antidegradation Rule (effective as of May 1, 1998), apply or may be granted by the Director of Ohio EPA.

Date of Public Notice: October 28, 2004

Sandusky County

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider, whether to issue or deny, 401 Certification for a project (Preferred Alternative) that is estimated to impact approximately 0.363 acres of a Category 1 and Category 2 (Modified) jurisdictional wetlands and total of approximately 3,287.80 feet of four streams in Sandusky County, Ohio. The Preferred Alternative primarily involves the reconstruction of approximately 2.71 miles of SR 53 from North Street in the City of Freemont to the eastbound Ohio Turnpike overpass (I-90 and I-80) in Sandusky Township, Ohio. Construction activities include the widening of the pavement of SR 53 to four-lanes and ancillary construction activities. The Applicant's Minimal Degradation Alternative consist of not impacting Stream 2 and Wetland 2. The Applicant's Non-Degradation Alternative would not make any changes in the project area which, according to the Applicant, would leave roadway facilities in substandard condition and would fail to satisfy the purpose and need of the project.

The application was submitted by the Ohio Department of Transportation (ODOT), 1980 West Broad Street, Columbus, Ohio 43223. The Ohio EPA Identification Number for this project is 042094. The U.S. Army Corps of Engineers, Buffalo District, Public Notice Number is 2004-00953 (1). SAN-53-10.15, PID 9443.

The impacts from the activity, if approved, would result in degradation to, or lowering of, water quality of jurisdictional wetlands and streams in the Sandusky River Watershed. The review of the application shall be conducted in accordance with Chapters 3745-1 and 3745-32, and other applicable provisions of the Ohio Administrative Code (OAC), including OAC 3745-1-05, before deciding whether to allow a lowering of water quality. Ohio EPA shall consider other alternatives during the review process that result in lesser or no degradation or lowering of water quality.

Starting October 28, 2004, copies of the 401 application and associated information may be inspected at Ohio EPA/DSW, Lazarus Government Center, 122 South Front Street, Columbus, Ohio, by first calling (614) 644-2001. Information on the 401 certification can be made available at Ohio EPA Central District Office by calling the same number.

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA/DSW, Attention: Permits Processing Unit, P.O.
