

## PUBLIC NOTICE

The 401 Certifications for the following general permits are being issued on September 20, 2012 as a final action with an effective date of September 20, 2012. Final actions are actions of the Director which are effective upon issuance or a stated effective date. Pursuant to Ohio Revised Code Section 3745.04, a Final Action may be appealed to the Environmental Review Appeals Commission (ERAC) filing an appeal within 30 days of notice of the final action. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel", which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Appeals Commission at 77 South High Street, 17<sup>th</sup> Floor, Columbus, Ohio 43215.

Final Issuance of 401 Certification for the USEPA General Permits:

1. Grant of Section 401 Water Quality Certification – U.S. EPA Vessel General Permit for Discharges Incidental to the Normal Operation of Commercial Vessels and Large Recreational Vessels across the State of Ohio

Issue Date: September 20, 2012

Effective Date: September 20, 2012

2. Grant of Section 401 Water Quality Certification – U.S. EPA Small Vessel General NPDES Permit for Discharges Incidental to the Normal Operation of Vessels Less Than 79 feet across the State of Ohio

Issue Date: September 20, 2012

Effective Date: September 20, 2012

Final 401 Certifications for U.S. EPA Vessel General Permits

This Final Action Was Not Preceded by a Proposed Action and Is Appealable to ERAC.

**INITIAL CERTIFICATION OF ENVIRONMENTAL PROFESSIONAL**  
**UNDER OHIO'S VOLUNTARY ACTION PROGRAM**

Notice is hereby given that on September 18, 2012, the Director of the Ohio Environmental Protection Agency, pursuant to Ohio Revised Code ("ORC")) 3746.04(B)(5) and Ohio Administrative Code ("OAC") 3745-300-05, issued an initial "certified professional" certification to: Daniel Distler, CP# 344.

The issuance of the certification is a final action of the Director and will be public noticed in accordance with OAC 3745-47-07. The action may be appealed to the Environmental Review Appeals Commission ("Commission") pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be filed with the Commission within thirty (30) days after notice of the action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Treasurer, State of Ohio", which the Commission, in its discretion, may reduce if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Commission at the following address: 77 South High Street, 17th Floor, Columbus, Ohio 43215.

If you would like to review a copy of the certificate, or any documents related to the certification, please contact DERR Records Management Officer, at Ohio EPA, Division of Environmental Response and Revitalization, Voluntary Action Program, P.O. Box 1049, Columbus, OH 43216-1049, or by telephone at (614) 644-2924.

Cargill, Inc. - Dayton  
3201 Needmore Road, P.O. Box 1400 A  
Dayton, OH 45413-8001  
Montgomery County

FACILITY DESC.: Wet Corn Milling  
PERMIT #: P0110052  
PERMIT TYPE: Administrative Modification

PERMIT DESC: Administrative Modification due to the facilities request for the removal of one gluten drum filter from the North Mill and its associated vacuum pump and vacuum receiver tank and relocating them to the Feedhouse side of the plant. Cargill will also install 4- 50,000 gallon process tanks for heavy gluten slurry storage at the Feedhouse. The tanks are considered to be de minimis. After relocation is complete, the Feedhouse will operate 5 drum filters and 3 vacuum pumps and vacuum receiver tanks (P011 and P092) and the North Mill will operate 3 drum filters and two vacuum pumps and vacuum receiver tanks (P086 and P093). The maximum gluten production rate for the plant will not change as a result of the project. Based on a maximum annual grind rate of 64,200,000 bushels of corn, overall plant wide gluten production will remain at a maximum of 70,620 ton per year. Following the relocation of the drum filter and ancillary equipment to the Feedhouse, Cargill will have the capability to process 100 percent of the gluten production through the Feedhouse operations. To preserve operational flexibility Cargill will not permanently shut down and remove the gluten processing equipment from the North Mill, but will maintain the equipment and the current North Mill gluten production capacity of 35,310 tons per year. The project will not cause a change in the overall allowable emission rates from the affected emissions units. Cargill proposes an increase in allowable emissions for individual emissions units; however, the total annual emissions from all sources will not change owing to the project not increasing the permitted annual gluten production rate. Cargill is correcting emissions estimates for several sources that were provided in prior applications and issued permits. The changes in emissions are negligible.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the permit # or: Christopher Clinefelter, Regional Air Pollution Control Agency, 117 South Main Street, Dayton, OH 45422-1280. **PUBLIC NOTICE  
NOTICE OF RECEIPT OF LEVEL 2 ISOLATED WETLAND APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Level 2 Isolated Wetland Permit for a project to build a church campus impacting 1.2 acres of category 2 forested wetlands. The application was submitted by The Mannik & Smith Group, Inc., 1800 Indian Wood Circle Maumee, Ohio 43537. The project is located at Refugee Road in Pickerington, Franklin County, Ohio (39° 54' 33.6162"N, 82° 47' 44.5884"W). The Ohio EPA ID Number for this project is 123996.

The review of the application will be conducted, and a decision whether to grant or deny the application will be made, in accordance with Ohio Revised Code (ORC) Sections 6111.02 to 6111.028 and other applicable provisions of state laws. Other alternatives as proposed by the applicant resulting in less adverse impact to the isolated wetland ecosystem will be considered by Ohio EPA during the review process.

Starting September 21, 2012, copies of the application and technical support information may be inspected at Ohio EPA-DSW, Lazarus Government Center, 50 West Town Street, Suite 700, Columbus, Ohio, by first calling (614) 644-2001. Copies of the application and technical support information can be made available upon request at Ohio EPA District Offices by calling the same number.

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049 within twenty days of the date of this public notice.

## Harrison and Tuscarawas County

**Date of Public Notice: August 11, 2012**

### **PUBLIC NOTICE NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to install approximately 12.0 miles of new 24-inch natural gas pipeline. The application was submitted by the East Ohio Gas Company. The project is located at Washington, Rush, Clay, and Mills Townships in Tuscarawas County and Franklin Township in Harrison County. The Huntington District Corps of Engineers Public Notice Number for this project is LHR-2012-00114-TUS-Watson Creek. The Ohio EPA ID Number for this project is 123939.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would temporarily impact 3.35 acres of wetland and 351 feet of stream.

The applicant's proposed minimal degradation alternative, if approved, would temporarily impact 2.79 acres of wetland and 351 feet of stream.

The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state. However, the pipeline construction is not technically feasible with this alternative.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of 40 wetlands and 34 streams. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting August 11, 2012, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: [www.epa.ohio.gov/dsw](http://www.epa.ohio.gov/dsw)

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O.
