The application was submitted by Jeffrey and Pamela Barker. The project is located at 27238 Lake Road, Bay Village, Cuyahoga County, Ohio. The Buffalo District Corps of Engineers Public Notice Number for this project is 2013-00073. The Ohio EPA ID Number for this project is 134096.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed minimal degradation alternative, if approved, would place 90 CY of material below the OHWM. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Lake Erie. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.
