

PUBLIC NOTICE
OHIO ENVIRONMENTAL PROTECTION AGENCY
URBAN SETTING DESIGNATION FOR
Federal Industrial Park Property in Columbus

Public notice is hereby given that the Ohio Environmental Protection Agency (EPA) has received, on October 18, 2013, a request to approve an Urban Setting Designation for approximately 68.547 acres of land located at 1840, 1846, 1850, 1879, 1883, 1885, 1889, 1891, 1900, 1920 Federated Parkway, 521 Innis Avenue, 633 and 681 East Woodrow Avenue and 558, 560, 600, 630, 650, 670, 700, 710, 720, 740, 750 Marion Road, Columbus, Franklin County. This request was submitted by Atul Pandey, Pandey Environmental, LLC, on behalf of FIP Realty Co., Ltd.

Pursuant to Ohio Administrative Code 3745-300-10(D), Ohio's Voluntary Action Program (VAP) allows for the voluntary cleanup of contaminated property in Ohio without the risk of state civil liability. Under VAP, ground water cleanup is required where contaminated ground water poses risks to the community or environment.

A USD may be requested for properties participating in the VAP when there is no current or anticipated future use of ground water by local residents for drinking, showering, bathing or cooking. In these areas, an approved USD would lower the cost of cleanup and promote economic redevelopment while still protecting public health and safety.

The Ohio EPA director may approve the request for a USD based on a demonstration by the certified professional that the USD requirements are met and an evaluation of existing or future uses of ground water in the area have been assessed.

Comments regarding this request for USD must be received by the close of business on December 30, 2013. Please direct your comments by mail to Robin Roth, Division of Environmental Response and Revitalization at 50 W. Town Street, Suite 700, P.O. Box 1049, Columbus, Ohio 43216-1049, or by email at robin.roth@epa.ohio.gov. The USD application can be viewed by contacting Lisa Oltman at (614) 728-0793.

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to extend the John G. and Phyllis W. Smale Riverfront Park to the Ohio River. The project is located at south of Mehring Way on the Ohio River and will replace existing parking lots with new lawn and landscaped areas, paved walkways along the river's edge and a public boat dock and dock house system. The application was submitted by the City of Cincinnati Parks Department.. The Louisville District Corps of Engineers Public Notice Number for this project is LRH-2012-327-cmh. The Ohio EPA ID Number for this project is 134255.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would impact approximately 4,100 linear feet of the Ohio River which has an aquatic life use designation of warm water habitat (WWH). The applicant's proposed minimal degradation alternative, if approved, would impact approximately 1,700 linear feet of the Ohio River which has an aquatic life use designation of WWH. The applicant's proposed non-degradation alternative is a no-build alternative and would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of The Ohio River. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted. Starting November 20, 2013, copies of the application and technical support information may be inspected at Ohio EPA-DSW, Lazarus Government Center, 50 West Town Street, Suite 700, Columbus, Ohio, by first calling (614) 644-2001.
