

**PUBLIC NOTICE
OHIO ENVIRONMENTAL PROTECTION AGENCY
URBAN SETTING DESIGNATION FOR
FORMER PAXAR FACILITY, MIAMISBURG, MONTGOMERY COUNTY**

Public notice is hereby given that the Ohio Environmental Protection Agency (EPA) has received, on December 16, 2013, a request to approve an Urban Setting Designation (USD) for approximately 35.7 acres of land located just south of Miamisburg Centerville Rd, between Byers Rd. and Alexandersville Rd. This request was submitted by Sanborn, Head & Associates, Inc. on behalf of Avery Dennison Corporation.

Pursuant to Ohio Administrative Code 3745-300-10(D), Ohio's Voluntary Action Program (VAP) allows for the voluntary cleanup of contaminated property in Ohio without the risk of state civil liability. Under VAP, ground water cleanup is required where contaminated ground water poses risks to the community or environment.

A USD may be requested when there is no current or anticipated future use of ground water by local residents for drinking, showering, bathing or cooking. In these areas, an approved USD would lower the cost of cleanup and promote economic redevelopment while still protecting public health and safety.

The Ohio EPA director may approve the request for a USD based on a demonstration by the certified professional that the USD requirements are met and an evaluation of existing or future uses of ground water in the area have been assessed.

Comments regarding this request for USD must be received by the close of business on Friday, April 4, 2014. Please direct your comments by mail to Brianna Knoppow, 401 East Fifth Street, Dayton, OH 45402 or by email at Brianna.Knoppow@epa.ohio.gov. The USD application can be viewed by contacting Brianna Knoppow.

NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to relocate Darrs Run to avoid erosion of the roadway and widen and resurface State Route 177. The application was submitted by the Ohio Department of Transportation. The project is located on State Route 177 between Oren Road and Somerville Road in Oxford, Milford Township (39.554508, -84.682328). The Huntington District Corps of Engineers Public Notice Number for this project is LRH-2009-00223-GMR. The Ohio EPA ID Number for this project is 134257.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would impact 4,085 linear feet of perennial, warmwater habitat stream (Darrs Run) and 65 linear feet of ephemeral stream for a total of 4,150 linear feet of impact. The applicant's proposed minimal degradation alternative, if approved, would impact 3,939 linear feet of perennial, warmwater habitat stream (Darrs Run) and 65 linear feet of ephemeral stream for a total of 4,004 linear feet of impact. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Darrs Run and one unnamed tributary. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting March 5, 2014, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw
