These rules govern the Permits-to-Install New Sources and Permit-to-Install and Operate Program.

The amended rules incorporate the U.S. EPA requirements for implementation of the New Source Review (NSR) program for fine particulate matter (that is, particles with an aerodynamic diameter less than or equal to a nominal 2.5 micrometers, generally referred to as "PM 2.5"), promulgated on May 16, 2008, as well as U.S. EPA's requirements for establishing increments, significant impact levels, and a significant monitoring concentration for fine particulate pollution, promulgated on October 20, 2010. As a fully approved NSR program, Ohio EPA is required to incorporate U.S. EPA's rules, or a version at least as stringent as U.S. EPA's rules, within three years of their promulgation. Please reference the federal register document (73 FR Vol. 96, page 28321) published on May 16, 2008 and the federal register document (75 FR 64863) published on October 20, 2010 for a detailed synopsis of the changes drafted by U.S. EPA. These documents, and additional information related to NSR, can be found at: <http://www.epa.gov/nsr/>.

Moreover, as a part of this rule package, Ohio EPA also incorporated changes in OAC Chapter 3745-31 not directly related to U.S. EPA's PM2.5 NSR implementation final rule. These second set of changes contain a host of revisions, including; adding or clarifying requirements to address Infrastructure State Implementation Plan (SIP) deficiencies identified by U.S. EPA (77 FR 65478), revising and adding definitions, adding federal land manager notification requirements and incorporating minor organizational or typographical changes.

Pursuant to Section 121.39 of the Ohio Revised Code, Ohio EPA was required to consult with interested parties affected by the rules before the division formal adopts them. On April 9, 2013, these rules went out for a 30 day review by interested parties. Pursuant to Section 119.03 of the Ohio Revised Code, a public hearing on these rule changes was conducted on February 18, 2014 in Columbus, Ohio. Several comments were received during the comment period and at the public hearing and Ohio EPA made appropriate changes to the draft rules. The Director's order of adoption was issued on May 19, 2014. **The effective date of these rules is May 29, 2014.**

To request a copy of these rules, obtain further information, or inspect or request copies of agency files and records pertaining to the proceeding contact Paul Braun, Ohio EPA, Division of Air Pollution Control, Lazarus Government Center, PO Box 1049, Columbus, Ohio 43216-1049 or call Paul Braun at 614-644-3734. The rules are also available on Ohio EPA's Web page for electronic downloading at: http://epa.ohio.gov/dapc/regs/3745_31.aspx

This action of the Director is final and may be appealed to the Environmental Review Appeals Commission (ERAC) pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with ERAC within thirty (30) days after notice of the Director's action, at 77 South High Street, 17th Floor, Columbus, Ohio 43215. Copies of the appeal must be served upon the Director of the Ohio EPA within three (3) days of filing with ERAC. The appeal must be accompanied by a filing fee of \$70.00 which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Ohio EPA also requests that a copy of the appeal be served upon the Environmental Enforcement Section of the Ohio Attorney General's Office.

PUBLIC NOTICE
Ohio Environmental Protection Agency
Revision to Lead Attainment Demonstration
State Implementation Plan (SIP)

Notice is hereby given that the Director of the Ohio Environmental Protection Agency (Ohio EPA) is submitting to the United States Protection Agency (U.S. EPA) a revision to the Lead SIP, for the partial Cuyahoga County, Ohio nonattainment area (The area enclosed on the west by Washington Park Boulevard/Crete Avenue/East 49th Street, on the east by East 71st Street, on the north by Fleet Avenue, and on the south by Grant Avenue).

This area was designated as a nonattainment area under provisions contained in the Clean Air Act (CAA). On June 25, 2012, Ohio EPA submitted Ohio's plan for attaining and maintaining the lead NAAQS in this area. Lead emitting operations at Ferro Corporation – Cleveland Frit Plant were analyzed and allowable emission limitations were incorporated into this areas attainment demonstration. Since the 2012 submittal, Ferro has requested to add an additional mill to their lead operations. Ohio EPA analyzed the requested change and determined due to reductions in lead emissions from additional controls added as part of the attainment demonstration in 2012, the addition of this mill will not require an increase in allowable emissions. Ohio EPA is revising Ferro's permit (see the Public Notice for Issuance of Draft Air Pollution Permit-To-Install) and the attainment demonstration to identify the additional mill and to maintain the current federally-enforceable emission limitations.

This SIP submittal to U.S. EPA includes a revised attainment demonstration identifying the additional mill and maintains the strategies deemed necessary to attain the air quality standard by December 31, 2015 incorporated into the 2012 submittal.

The State of Ohio will request that U.S. EPA review and approve the addition of the mill to the list of mills contained in emissions unit P071 in Table 3 of the Attainment Demonstration.

These actions must be noticed to allow public comment and to satisfy U.S. EPA requirements for public involvement in SIP-related activities. Written comments will be received on or before June 24, 2014 at the following address:
