**PUBLIC NOTICE  
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to surface mine an approximately 366.2 acre site to recover the Middle Kittanning (No. 6) coal by contour mining. The application was submitted by Oxford Mining Company, LLC. The project is located within Washington Township, Muskingum County. The Huntington District Corps of Engineers Public Notice Number for this project is LRH-2011-18. The Ohio EPA ID Number for this project is 144501.

As required by the Anti-degradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would impact the following: 1,292 linear feet of perennial stream, 720 linear feet of intermittent stream, 3,109 linear feet of ephemeral stream, and 0.60 acres of Category 2 wetlands. The applicant's proposed minimal degradation alternative, if approved, would impact the following: 1,284 linear feet of perennial stream, 290 linear feet of intermittent stream, of 2,555 linear feet of ephemeral feet, and 0.42 acres of Category 2 wetlands. The applicant's proposed non-degradation alternative would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Blount Run, a direct tributary to the Muskingum River. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting 10/06/2014, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: [www.epa.ohio.gov/dsw](http://www.epa.ohio.gov/dsw)
